“ *Bobbie and I worked together at the old War Memorial hospital. I was an orderly then and we worked well together. She encouraged me to go to nursing school, which I did and then went to Anesthesia school and worked in that field for 33 years. Barb was an excellent nurse and enjoyed working with her. In reading her obituary I discovered that her sister Marian Jones is her sister. We went to the community college together when it was only ten years old. That was only fifty years ago.*
