“ I can remember Pete since before I ever started to school, as he was a friend of my parents, Wallace and Dorothy Newton, before I was born as far as I know. I have always loved convertables, and finally got one when I was in college, but this love of them was fueled because Pete had a convertable when I was little. I remember my dad going over to him to talk to him one evening in Yoder, with me, right after Pete had gotten a new top for his car. I do not remember the make, but it being a convertable was the greatest. I was very sad to see that Pete passed away. Our prayers and sympathy go out to all his family and friends, a few of whom I know and I hope my telling of these memories will help all his family and others who knew Pete hold on to who Pete was and what he did in this life.
