“ Momma Posten was a wonderful person who touched my life and so many others. She was my second mom and I feel lucky to have had her in my life for 50 years! I spent many a days and nights as a kid at the Posten house and I always felt welcomed and loved (even when she was yelling at Kathy and I to shut up and go to sleep). She fed me a lot of good food and seemed to always be working on a puzzle on the kitchen table. I love you and will miss you always!!

“ What a special lady Mrs. Posten was! As an elementary student at Guernsey-Sunrise, I looked forward each and every day to visiting our cafeteria to be greeted by the kind and specialness Mrs. Posten and Mrs. Tinsley provided to us as we made our way through the lunch line. Mrs. Posten made each of us feel "special" and cared about. I always loved her earrings and begged my mom to let me have my ears pierced. My mom always said that I could not get my ears pierced until I was in 6th grade. When 6th grade came, Mrs. Posten visited with my mom and I was able to get my ears pierced. The day after I got them pierced, Mrs. Posten brought me special new earrings to wear! I wore those earrings every day until I couldn't! I have never forgotten Mrs. Posten and as I have had the opportunity to teach and lead in school/district communities in Wyoming, I have never forgotten the important lessons Mrs. Posten brought to the cafeteria- the importance of "connecting with care and love" that goes into each student as they visit our lunchrooms each and every day! Thank you, Mrs. Posten, for leaving the life lessons our students need each and every day in every school community's lunchroom/cafeterias. Sending well wishes to all of her family.

“ Etta around 1974 you became part of my life: I was just a young girl who started working in the lunch room to earn some money and get a free lunch. You, Net and a couple other ladies gave me much more than that. Every morning I would get off the bus and head straight into the kitchen to see what all of you were cooking for lunch that day. The smell of all the baking such as apple pie, cinnamon rolls or the no bake cookies and of course the actual meal would be having for that day; these are things I make frequently for my family and friends. They have often asked where I learned to make my cinnamon rolls and I always tell them it was from you and the other wonderful ladies. Most of all I would go in to visit with you so I could start my day off right: You helped me become the woman I am today; for that I truly thank you!! I loved when I would come back home as you were one of the first people I would go visit. We would sit and talk about how everyone in the family was doing and how proud you were of them. We would sit down in your living room and have a couple of drinks you mixed up and laugh for awhile. I will miss your laugh and our conversations over the phone, messenger and Facebook. You will forever be in my heart.

I love you with all my heart, I will miss you
