“ To Rose's family my condolences. I didn't know her long but she defiantly made an expression on my heart. I'll never forget she just came to the care Center and I told her I was here to help her walk, she looked at me and said why? Like I was crazy . I'm 101 and I'm tired. One day I told her about my calf being born and that it was our heard starter, she smiled and we started talking about her family farm. I loved that because I felt we made a connection. I will Miss you Rose and seeing your family take you to lunch every day.
